

Use of Digital / Video Images & Photos

The use of digital / video images plays an important part in our activities. Children / young people, staff and volunteers may use digital cameras or other devices to record evidence of those activities. These images may then be used in Learning Journeys and presentations and may also be used to celebrate success through their publication in newsletters, on the website, social media networks and occasionally in the public media.

The school will comply with the Data Protection Regulations and request parent / carer permission before taking images of their children. We will also ensure that, wherever possible, full names will not be published alongside images.
